About me

My name is Anton Voroniuk.

I'm the co-owner of Webpromo Digital Agency, I'm a digital strategist, and I am also a Google Academy agency trainer. I love digital marketing, and I love to help my students grow their knowledge of digital marketing.

I've worked in this field since 2008, and during this time, Webpromo has helped over 1000 small and mid-sized businesses with digital strategy and online promotion. In addition to our SMB clients, our agency also currently works with several reputable brands and organizations such as Coca-Cola, Johnson & Johnson, BNP Paribas, Bayer, Sanofi, Vodafone, The United Nations, and the OSCE. Webpromo Digital Agency is a Google Premier Partner and a Facebook Marketing Partner.

Natural Language AI

Derive insights from unstructured text using Google machine learning.

[Try it for free](#)

Insightful text analysis

Natural Language uses machine learning to reveal the structure and meaning of text. You can extract information about people, places, and events, and better understand social media sentiment and customer conversations. Natural Language AI enables you to analyze text and also integrate it with your document storage on Cloud Storage.
